In this anti-Christic climate where many false doctrines and false messiahs have risen, those trapped under their influence and religions are being persuaded by the twisting, editing and omitting of Biblical Truths. Because of the lack of certain liberating knowledge of our precious, Divine Heritage in Lord Jesus and Him as our Sovereign Leader, those still wanting for worth are easily captivated by doctrines of death and deceived by movements or by men claiming to be ‘chosen’ of the True God, or claiming to be The Messiah. Unfortunately, this phenomenon is ever-present and persistent where many capitulate their most treasured identity to the self-chosen with false claims, twisted teaching and deadly acts. Such doctrines produce poverty, fear, and stifle potential. This is why the Gospel of the Kingdom of God is to be taught in every nation. The Truths unearthed from the Bible in parables like **Matthew 22** show and tell those who are truly chosen by the Living God. **This Book** helps us to understand Biblical Truths pertaining to **The Called; The Chosen; The Faithful.**
